1

00:00:00.865 --> 00:00:01.445

Hey everyone.

2

00:00:01.855 --> 00:00:04.525

Today we had the awesome experience of talking

3

00:00:04.525 --> 00:00:08.885

with 13 innovation companies who are bringing new ideas

4

00:00:09.025 --> 00:00:12.565

and innovation into how products are made, which is going

5

00:00:12.565 --> 00:00:15.205

to be critical in relocating their production.

6

00:00:15.205 --> 00:00:18.285

If we wanna change where things are made back to the U.S.,

7

00:00:18.735 --> 00:00:20.165

we're gonna have to make them differently.

8

00:00:20.545 --> 00:00:22.525

And these companies brought ideas from

9

00:00:23.125 --> 00:00:27.485

advanced manufacturing to new growing practices, to

10

00:00:28.285 --> 00:00:30.365

entirely alternative ingredients, um,

11

00:00:30.515 --> 00:00:32.565

that could revolutionize the way that we make things.

12

00:00:32.825 --> 00:00:33.845

It was an incredible day.

13

00:00:34.095 --> 00:00:35.485

Teams learned so much,

14

00:00:35.665 --> 00:00:38.485

and were excited to figure out the right path forward

15

00:00:38.595 --> 00:00:41.085

with each of these groups for how Walmart can be a part

16

00:00:41.085 --> 00:00:42.245

of their scaling story.
