HIPAA

The above text contains a list of laws and regulations, including HIPAA, Medicare, and Walmart Privacy Policy. It discusses the protection of patient information, the disclosure of information, and the rights of patients under these laws. The text also mentions Walmart's commitment to privacy and security, including the use of secure transaction processing, encryption, and the protection of PHI (protected health information). The document also highlights Walmart's compliance with health information technology standards and the use of software to protect patient information. It concludes with a statement emphasizing Walmart's dedication to protecting patient privacy and ensuring the security of patient information.
(800) WAL-MART. To report any concerns, it is important to make sure that you have all the necessary information. The following steps should be taken:

1. If you believe that the organization has not met any accreditation requirements, please contact the appropriate accreditation body. You can find a list of these bodies on the Commission for Health Care Accreditation (ACHC) website:

   www.achc.org

   Before contacting, please be aware of the accreditation bodies that have the required credentials.

2. If you believe that the organization has violated the law or regulations, you can contact the appropriate regulatory body. The regulations can be found on the Federal Register (42 CFR 424.57(c)) website:

   www.ecfr.gov

   Before contacting, please be aware of the legal requirements and the specific regulations that apply.

3. If you believe that the organization has failed to meet any other standards, you can contact the organization directly. Please provide all the necessary information:

   www.walmart.com

   Before contacting, please be aware of the organization’s policies and procedures.
