The secret of Walmart's success is simple – our people. We're proud of our investments in associate wages and we continuously review our pay and rewards to make sure they're attractive in the markets where we do business. We're also proud of our culture of growth and belonging. Approximately 75% of our U.S. salaried store, club and supply chain managers started their careers as hourly associates.

Our U.S. associate average hourly wage is over \$17.50.
